Class '97, after classical studies, thanks to which I developed a passion for ART, I feel the desire to want to 'work' for this utlima grow in me. I enrolled in the Faculty of Architecture, intrigued by the relationship between man-home and architecture-art, I believe that architecture is a support, a home for art. I graduated and decided to continue my studies by enrolling in the Master of Architecture Unige-DaD and began to follow the course edX Harvard: The Architectural Imagination. In September 2021 I started my Erasmus at Universidade do Minho in Braga, Portugal. One of my strengths is the organization in time and space, which allows my creativity to emerge between deliveries and responsibilities, in which I pour commitment and empathy.

education

2011-
2016

2016-
2020

Degree in Architectural Sciences at Unige DaD , Architecture University of Genova

con votazione **102/110**

THESIS

Tree House Module

The tree house is perhaps one of the first and most shared archetypes of architecture. It is the refuge of childhood, an inaccessible place suspended between sky and trees.

competition proposed by Young Architects Competition
